HOW TO SURVIVE ON YOUR AIRPORT

Come hear how you can make your airport a safer place on which to operate. Meet the local airport personnel and the entire eight-member regional FAA Runway Incursion Action Team (RIAT). They'll all be there to brief you on what is happening nationally, regionally, and at the Garden City Airport. In addition, they want to hear what you have to say and answer any questions you may have about your airport or runway safety.

How to Aviate, Navigate, and Communicate to “Stay Alive” on Your Airport

This is a joint presentation on Runway Safety by FAA Flight Standards, Airports and Air Traffic Control personnel.

Your attendance at this safety seminar fulfills one of the requirements of the Pilot Proficiency Award Program (WINGS). See Advisory Circular (AC 61.91H) for details of the Wings program.
